No Treasurer's Report

The President noted appreciation to Jack Rouzie for hosting the fly in at Brooklyn Airstrip.

Under Old Business, the President noted that the Association's brochure was still being worked on.

The President then discussed the membership initiative and how we needed to focus regionally and that this would involve 1:1 contacts with airstrip owners. He reminded everyone that membership is open to anyone who owns or uses a private airstrip.

Under New Business, the President announced the tentative date for the Annual Meeting. The meeting will be held at the Virginia Aviation Museum on Saturday January 2nd. More information will follow.

The President further announced that our new legal representative will be Doug Winegardener (pilot and close friend of Al Orgain) with the Sands, Anderson law firm

There was a discussion regarding how to protect your private airstrip after your death and how it is important to tie the land and runway to a specific real estate tax PIM # rather than a name, so that it survives as a logged runway.

Having no further business the meeting was adjourned at 2:05 PM.

Respectfully Submitted,

Daniel Arkin
Secretary
